Vorwort.

Ein althochdeutsches Wörterbuch bedarf vielleicht unter jeder Gestalt, gewifs aber, wenn es so eigenthümlich wie der Graff'sche Sprachschatz angelegt ist, eines alphabetischen Index.

Manche zweifelhafte Form, mancher verdunkelte Orts- und Eigenname, die, weil wurzelhaft oder sinnbedeutsam, doch untergebracht sein wollen, entziehen sich leicht dem Auge des Wiedersuchenden, und kommt mehr oder minder willkürlicher Wurzelansatz, eigene Lautschreibung (der c g k, h ch, b p, ph f v; eo iu, ou au etc.) hinzu, so taucht Vieles, was ungewifs ist und bleibt, in dem Meere der Formen für das lexikalische Ortsgedächtnifs wenigstens auf Augenblicke oft fast spurlos unter.

Indem ich mich in Folge besonderen Wunsches des vor Druckbeendigung des fünften Bandes von seinem Sprachschatze schon abgerufenen Verfassers zur Vollendung des sechsten Bandes und somit des Werkes bereit erklärte (s. Vorrede zu Bd. VI.), ward der geschilderte Index fast Bedingung.

Aufser der blofs alphabetischen Aneinanderreihung der verschiedensten Formen aber zugleich auch das nach Ablautung und Ableitung Zusammengehörige unter Stämme und Wurzeln zu vereinigen, besonders für solche, die sich des grofsen Graffschen Werkes wenigstens zum schnellen Nachschlagen nicht bedienen können und mögen, lag dabei um so mehr nahe, als die Erben des Sprachschatzes nach dem sechsten Bande auch einen besonderen Index noch in den Kauf zu geben nicht mehr gewilligt waren, die Verlagshandlung daher solchen selbständig zu liefern sich entschliefsen mufste. Bei Übernahme auch dieser Arbeit konnte wegen jener Doppelrücksicht natürlich nicht vermieden werden, dafs die klare Wortverzweigung oder der reine Fortschritt der Wurzelansätze nicht durch dazwischentretende todt-alphabetische Aufführungen vielfach unterbrochen würde; ich hoffe aber durch hinlänglich allseitige Rückweisungen den Faden erträglich anschaulich unterhalten, so wie durch stäte Hinzufügung der betreffenden Rand- und Seitenzahlen des Graff'schen Werkes, der ursprünglichen Aufgabe ununterbrochener Beziehung darauf genügt zu haben. Dafs durch diese manches gewifs

nicht deutsche Wort, mancher vielleicht keltische Ortsname u. s. w. mit unterlief, der hier durch die alphabetische Anordnung nun erkennbarer hervorspringt, lag in Graffs Vorgange, und stehen nicht z. B. die malbergischen Glossen auch nach Leo's Anregung immer noch mehrfach in Eigenthumsfrage? —

Ich mufste alles von Graff an den muttersprachlichen Wortschatz Angelehnte oder sich von selbst Anlehnende auffindbar machen. Ich durfte aber deshalb auch in den Wurzelansätzen und Unterordnungen nicht zu weit gehen, damit ich nicht in denselben Fehler verfiele, welcher zum Theil, von Anfang an, den Index wünschenswerth machte. Manches, was etymologisch vielleicht mit Wahrscheinlichkeit hätte untergeordnet werden können, habe ich daher lieber selbständig, doch nicht ohne Rückweisung, aufgeführt.

Aus denselben Gründen aber durfte ich mich auch im Index *) überhaupt nicht allzusehr von Graffs Ansätzen, so wie von seiner Schreibung entfernen. Eben darum blieb ich auch bei den lateinischen Erklärungen innerhalb des Bereiches stehen, den die alten Denkmäler darboten, und nur selten gieng ich aus etymologischen oder logischen Gründen davon ab oder darüber hinaus; noch seltener fügte ich eigene Formvermuthungen (z. B. goz und wRiso und ähnliche wR- statt r-), gerne aber neuere Berichtigungen oder Erweiterungen Andrer hinzu, wobei ich nur bedaure, dafs mir für einige (vgl. hlîban und lîben) im Verlaufe des Druckes an Ort und Stelle nicht mehr die Zeit blieb.

Schon als ich den sechsten Band des Sprachschatzes nach des seligen Verfassers eigenthümlich geschriebenen Vorarbeiten zu veröffentlichen übernahm, war ich theils durch die Nöthigung zur raschesten Vollendung des fraglichen Werkes, theils durch Berufsverhältnisse, die durch mein Leben gehen und mich bald darauf zu gänzlich in Beschlag nehmender anderartiger Thätigkeit von München nach Berlin führten, in Wahrheit so umdrängt, dafs ich schon jenem einmal übernommenen Schlufsbande des Sprachschatzes nur unglaublich wenige Zeit widmen, am wenigsten aber etwa den späteren Zugewinn an althochdeutschen Glossen u. s. w. nachtragen konnte, was überdiefs, auch selbst für den Index, aufser der Aufgabe lag. Manche aus jener ersten ja doppelten Bedrängtheit untergelaufene Fehlansätze (schon Graffs) wurden bereits im Index in die Richt gebracht (Ableitungen von stat-stât, slahan-slagôn; strêdan etc.), Andres konnte auch hier nicht mehr berücksichtigt oder berichtigt werden z. B. irquepanaz, das ich S. 173, 3. als besondere Form zwar aufführte, mit Graff aber verkannte.

Gänzliche Unterbrechung ruhiger wissenschaftlicher Thätigkeit während meines nun dritthalbjährigen Aufenthaltes oder vielmehr Nichtaufenthaltes in meiner Vaterstadt (denn ich war grofsentheils in den Provinzen) hat gewifs auch diesen Index vielfach gedrückt, und hätte nicht Herr Dr. E. Sommer (jetzt Docent in Halle) wie wiederholt die erste Correktur, so auch während meiner mehrfach langen Abwesenheit von Berlin die gänzliche

*) Im sechsten Bande gebot es mir die Pietät: es sollte ja auf keine Weise meine Arbeit werden.

Druckdurchsicht besorgt, so wäre der Index wohl noch länger gelegen, als nach vielfach erfolgter Nachfrage jetzt schon Manchem lieb gewesen zu sein scheint.

Aus jenen Gründen ist es mir aber auch im Augenblicke des Druckabschlusses nach eben erst erfolgter Wiederheimkehr rein unmöglich, das Ganze einer nochmaligen allseitigen Durchsicht zu unterwerfen und kann ich darum nur einige im Verlaufe des eigenen Gebrauches angemerkte Mängel oder Druckfehler nachweisen. Diefs betrifft wesentlich den gleich anfangs um ein Nu zu spät bemerkten, bei der ersten Lieferung aber bereits angezeigten Setzausfall von êwa, *seculum* etc. wegen êwa, *lex*. Andres werden Andre finden, die mir wohl oder übel wollen. Letztere mögen, wenn auch nicht die angedeuteten Umstände wie Berufsverhältnisse, so doch die wahrlich nicht erquickliche Mühwaltung, die ich ihnen abgenommen, gnädig in Anschlag oder Abrechnung bringen und — sich ihrer besseren Erkenntnifs freuen: auch von ihnen lerne ich gerne, vielleicht am liebsten, nur nicht die Leidenschaftlichkeit.
